02 Applications

Use the Soap or Hand Sanitizer of your Choice with the ASD-13 Soap Dispenser. Built for heavy duty applications, this model utilizes state of the art infrared sensors technology.

Designed for environment with low vandal risk, the ASD-13 has gained wide acceptance in a variety of applications such as laboratories, clinics, executive restrooms, and residential bathrooms. The model ASD-13 has the potential of saving its own value in soap in a short period of time as it does not require the use of soaps made by the dispenser manufacturer and sold at high prices. It inhibits the spread of germs, and is conducive to a clean sterile environment
